

## Wonderware Online

### Turn Industrial Data Into Powerful, Accessible Insights

Wonderware Online is a secure, managed solution for gathering, storing and visualizing data. This cost-effective cloud solution makes for smarter business decisions and consolidation of disparate data to enable end users to see the entire picture when it comes to business performance. All of this data is made available throughout your enterprise to allow secure access from absolutely anywhere. If you are looking for the shortest, most economical route to the big-time benefits of advanced industrial information management, you have found it.

## The Wonderware Online Difference

Wonderware Online is an economical software-as-a-service solution that allows you to readily discover valuable insights within your organization. Unlike other services, it requires no additional IT, staffing or infrastructure. We make it simple for you with an annual subscription model and easy set up. Quickly get started collecting and storing high fidelity, time-series data from multiple, disparate sensors and smart devices within the secure cloud. Authorized users receive easily understandable power analysis and intelligent reporting tools via web or mobile. All of this, right when you need it, whenever you need it. It is that simple.

### In a Nutshell

**Consolidate:** Integrate content from multiple data sources using a single, cloud-based system

**Large Capacity:** Handle millions of tags and unlimited users, providing immeasurable capability

**Stay Current:** The Wonderware Online service is continuously kept up-to-date, automatically, no action needed

**Security:** Safe, secure and reliable connections powered by Microsoft Azure's proven cloud technology

**Collaborate:** Share plant operations data across the enterprise to initiate action by the right person at the right time

**Access Everywhere:** Powerful analysis and reporting tools deliver visualization to web or mobile devices anywhere, anytime

### Real-Time Data Made Easy

Using Wonderware Online, you no longer need to worry about the ins and outs of data collection and storage. Simply hone in on

interpreting your results and using them to improve operations. Eliminate investing in hardware servers and software upgrades with our cloud-based storage. The annual subscription model allows for updates to be managed seamlessly in the cloud and offers a scalable approach to suit growth. Your business decisions will be made both faster and more informed given a responsive newsfeed and alerts on up-to-date intelligence. Use this information to create time-series data into intuitive charts and dashboards.

### Excellent for OEMs and Solution Builders

Wonderware Online is a fantastic way to provide customers with a value added solution to help them make the most of your system's capabilities. It will enable them to visualize the powerful performance that your solution offers, while at the same time giving you the added benefit of improved troubleshooting and warranty investigation. Let your customers rest easy knowing that their information is safe with the use of secure data authorization, authentication and encryption.

Not only that, but the managed solution approach takes the worry of system maintenance, migration or upgrades out of the equation to keep your equipment at its best for unparalleled customer satisfaction.

### Excellence is a Purpose We All Share

Wonderware is committed to being your long-term automation partner, backed by a world-class global network of technical support personnel, distributors, system integrators and VAR/OEMs, ready to assist you in every corner of the world.
